

CHRONOLOGY

Larson Brothers Limestone

S/049/011

July 22, 1987	DOGM sends notification to Larson Brothers Limestone (LBL) of their violation with Utah State Mineral Lease agreement.
October 28, 1987	File memo regarding site inspection. Gate at entrance to LBL property was locked so inspector could not enter. Includes some photos of the site.
October 29, 1987	DOGM sends LBL letter informing them they must file a mine and reclamation plan as required by the Utah Mined Land Reclamation Act.
January 21, 1988	File memo regarding site inspection. It was determined by the inspector and Mr. Larson that LBL qualifies for a rock aggregate exemption and therefore LBL will not be required to submit a NOI at this time.
January 21, 1988	DOGM notifies LBL they are exempt from Division regulations at this time. Also, LBL is informed they must file a mine and reclamation plan if they should decide to mine the limestone formation by drilling and blasting.
May 11, 1988	File memo regarding site inspection. Inspector advises LBL to file a Small Mine Notice since LBL plans to drill and blast.
May 12, 1988	DOGM receives Small Mine Notice. Variances requested on items 9, 10, and 11.
May 16, 1988	DOGM grants variances for leaving highwalls and for not reclaiming roads which have a post mining use. A topsoiling variance is granted for only those areas where safety of the equipment operator precludes salvaging the soils. LBL is also informed they must post a reclamation bond if mine site expands beyond five acres.
February 6, 1989	DOGM requests annual report for 1988.
January 5, 1990	DOGM requests annual report for 1989.

July 25, 1990	File memo regarding site inspection. Inspectors feel site exceeds five acres and has grown since the May 1988 inspection.
December 31, 1990	DOGM requests annual report for 1990.
January 9, 1991	DOGM receives annual report for 1990.
January 14, 1992	DOGM requests annual report for 1991.
January 27, 1992	DOGM receives annual report for 1991.
March 30, 1992	DOGM receives letter from Deputy Utah County Attorney regarding zoning regulations.
April 21, 1992	File memo regarding site inspection. Purpose of inspection was to evaluate current status of the small mining operation.
April 21, 1992	File memo documenting meeting with DOGM, Utah County Commission, and LBL. Meeting purpose was to clarify the jurisdiction of Utah County Ordinances and the DOGM regulations with respect to LBL's operation.
May 14, 1992	File memo regarding site inspection. Purpose of inspection was to determine extent of the mining related disturbance at the site.
May 26, 1992	DOGM receives letter from LBL. Included with letter is a map of the site. LBL states area of activity is approximately 3.5 acres.
June 16, 1992	DOGM sends LBL a letter outlining the areas not included in LBL disturbed acreage estimate. DOGM requests that LBL obtain an aerial photo of the mine site so the disturbed area acreage disagreement can be resolved.
June 23, 1992	DOGM receives letter from LBL stating that areas that have been granted variance and areas with post-mine use should not be used in disturbed area calculation. LBL refuses to purchase aerial map.
August 17, 1992	DOGM receives aerial photo of LBL site.
January 4, 1993	DOGM requests annual report for 1992.
